

Тестирование программы:

Случаи некорректного ввода:

1. Не введено целое число

C:\Users\user\Desktop\работы на сдачу\FASM_miniproject1\Simonovich_John_193_miniproject1_ver2.exe
Okay, throw me 32-bit number: хочу поллы
Invalid input, not a number was entered, or it is not a machine word
_

Примеры корректного ввода:

1. 5 троек '011' при $46811_{10} = 1011011011011011_2$

C:\Users\user\Desktop\работы на сдачу\FASM_miniproject1\Simonovich_John_193_miniproject1_ver2.exe
Okay, throw me 32-bit number: 46811
Number in the binary num system:
00000000000000001011011011011011
Result: 5 triples of 011.
_

2. 4 тройки '011' при $26523_{10} = 0110011110011011_2$

C:\Users\user\Desktop\работы на сдачу\FASM_miniproject1\Simonovich_John_193_miniproject1_ver2.exe
Okay, throw me 32-bit number: 26523
Number in the binary num system:
00000000000000000110011110011011
Result: 4 triples of 011.
_

3. 1 тройка '011' при $65533_{10} = 01111111111111101_2$

```
Okay, throw me 32-bit number: 65533
Number in the binary num system:
00000000000000001111111111111101
Result: 1 triples of 011.
```
